Generation,**

**Are the Future of
the Nation.**

SCHOOL PROSPECTUS 2024-25

*We will strive and script success story
And we'll enhance India's glory*

OUR GUIDING PRINCIPLES AND OUR PRIORITIES

- Disciplined enthusiasm for work is essential for high quality work.
- Every student has in him the potential to emerge as the pride of India.
- Education equips, enables, enriches, enlightens and inspires.
- Bonding with books makes us all independent learners.
- Concentration is the key to education
- Planned, prepared and passionate teaching always leads to deep and comprehensive learning.
- High goal keeps us inspired, fills us with fire and enables us go higher.
- Every student is to be groomed in a manner that he gets ready for all the 21st Century challenges.
- We need to aspire for excellence and we must not set for mediocrity.
- Learning beyond text books is possible in library, laboratory, sports ground and on stage.

ABOUT REVEL DALE PUBLIC SCHOOL

- Revel Dale Public School is a hub of learning.
- Students get countless opportunities for their harmonious growth and development.
- Through theme based assemblies time tested values and virtue are cultivated in students.
- Children are given ample scope for building up their confidence.
- Skills are recognized and chiselled.
- Students are made disciplined through demonstration.
- It is always ensured in the classroom that teaching leads to learning.
- Students learning gaps are identified and then they are removed through individual guidance and counselling.
- Every small step towards improvement is noticed and appreciated.
- Application based and hands on learning is imparted to students to ensure deep and comprehensive understanding of concepts.
- Art Integrated learning is put into practice to make classroom teaching interesting and engrossing.
- Sports activities are integral part of the education being imparted at the school.
- Special personality grooming sessions are conducted at the school to inculcate inspiring insights, vast word power and eloquent communication skills in the children.

TEACHERS – THE MENTORS

Teachers are the soul and spine of every school. Revel Dale Public School is growing at a fast pace because here all the teachers have in them the ever increasing enthusiasm for their subject and they are zealous for creating similar enthusiasm in students also.

- All the teachers are empathetic compassionate and receptive.
- They impart planned and prepared teaching.
- All the teaching sessions are always lively, interactive and pleasant at Revel Dale Public School.
- All the teachers exemplify noble vision, commitment, integrity, love for subject, strong communication skills and passion for reading.
- Teachers walk an extra mile to save the children from all the of distractions that are so widely pervasive in the modern times.
- Teachers at Revel Dale Public School embody simplicity, humility and accountability
- Teachers conduct extra classes at the school to strengthen the academic foundation of the students.
- They state learning objective, real life relevance and examinational relevance of every topic in the class and thus they develop curiosity in the children.
- In every classroom students having their distinct strengths and limitations are sitting. Teachers at Revel Dale Public School draw everybody's attention, keep everyone engaged and assess everyone through interactive questions and thus they sharpen the strengths of the children and convert their limitations into strengths.

RAJIV ARORA
PRINCIPAL

CAMPUS & FACILITIES

- **School Campus** : School campus is spread over six acre land.
In this sprawling campus children get all that they need for their holistic development. In the well-lit and well ventilated campus they listen, learn, peruse, prepare and present their insights in varied forms.
- **In the Classrooms** children get ample natural light. The place where they are to spend maximum time is duly equipped with the amenities that children require for their high quality learning and future building education.
- **In the Assembly Ground** children assemble every day and learn the life lessons and winning ways that will make them all stand apart. Here a number of children perform a number of activities on the stage. In the assembly ground children listen, recite and respond in unison and thus a feeling of oneness gets cultivated in the children.
- **Science and Geography Laboratories** play a pivotal role in enabling the children to learn through hands on learning. A lot many myths and misconceptions get shattered when children observe different stages of a theoretical concept in the labs and thus their level of understanding grows deep and vast.
- **In the Hi-Tech Computer and Multimedia Lab** children get to know about the way computer can be used in our day to day life for different educational and professional purposes. Teachers use a number of interesting and engrossing ways to transmit computer education to children.
- At Revel Dale Public School, it is always believed that books are the strong and unfailing source of enrichment, empowerment and enlightenment.

There are seven thousand books in the **School's Library**. We have subscriptions of fifteen periodicals and journals. A number of creative and innovative activities are conducted in the library period to promote love for reading in the children.

CURRICULUM AND ACADEMIC SYSTEM

NURSERY TO 2nd Std.

- Students at pre primary level are groomed in such a manner that children develop love for school and school education.
- Children receive education in a cheerful and pleasant environment.
- Classroom teaching at this level is imparted with multiple teaching aids and thus children enjoy themselves while attending their class.
- There is an important role of dance, music and art in pre-primary teaching. By integrating dance, music and art oriented activities teachers make every teaching learning session highly interesting for small students.
- Story telling session, poem recitation session and conversation sessions are conducted not only to amuse the children but also to cultivate winning habits in the children.
- A strong connection and concern for Mother Nature and environment is developed in the children through a number of oral activities.
- A number of possibilities are seen in all the children. All-out efforts are made on the children to make them blossom, and to convert their hidden possibilities into reality.

3rd to 5th Std.

- It is at this level that children receive formal education in a formal classroom environment.
- At this level, teachers strive hard to enable the children to read the text book content, to write the notes based on the text; to understand the definitions and concepts and express the views based on text books in an intelligible manner.
- Work is done on the students in a way that their reading and writing speed increases.
- Activities based on each chapter of every subject are prepared. When students perform these activities, the message and value content of each chapter get permanently registered in the minds of children.

6th to 8th Std.

- Children need to read three separate books of Physics, Chemistry and Biology in order to prepare themselves for Science Paper. For S.St. paper children need to study one book of History and Civics and one book of Geography.
- Even though syllabus is very vast yet teachers teach in a time bound manner. They are all given sufficient number of teaching periods to finish their syllabus in time.
- Children learn three languages till 8th Std, i.e. English, Hindi and Punjabi.
- Understanding level of students is assessed through regular revision tests that are conducted in separate time slot.

9th to 12th Std.

- It is expected of all the students of classes 9th to 12th Std. to pursue a high goal.
- At this level all the children are kept in the motivated frame of mind to work hard to achieve their goal.
- All the children are expected to be very focused and diligent. Teachers too elaborate every aspect of every concept and thus they provide detailed information to the children. Sufficient practice assignments are also given to children to make them all self reliant and confident.
- Teaching at this Level is project based. Children get to know how different principles, formulae, systems policies and mechanisms given in different books of different subjects are to be put into practice.
- At this level children study two languages, i.e, English and Punjabi. They study an optional subject. Children

Study one of the following Optional Subjects Computer Application, Physical Education and Economic Application.

- Through class seminars, language proficiency classes, experiential learning and different text based role plays children are prepared for different competitive examinations.
- Through class discussions and assessment tests the preparation and understanding level of the students is reviewed. Children having casual approach toward learning are counseled and children with learning gaps are given personalized guidance in special classes that they may all become future ready youngsters.

CULTURAL ROOTS ARE STRENGTHENED AT THE SCHOOL

Special assemblies based on our festivals and special events based on the lives of different legends of Punjab and India are conducted at the school with a lot of fervour.

Through these commemorations children get to know the uniqueness of our culture that stands for unity in diversity.

All the Indians belonging to different castes, creed and religions live in harmony. This harmony and oneness among all the Indians is celebrated with matchless enthusiasm and exuberance at the school. There are a number of occasions when dramatized activities are held at the school to develop sense of pride in the students in being a Punjabi and an Indian.

HOUSE ACTIVITIES FOR THE HOLISTIC DEVELOPMENT OF THE STUDENTS

In every student there are countless skills and strengths. School is a place where a platform is provided to the students to showcase their inherent skills and strengths.

There are four Houses at the school:

- Tagore House
- Radhakrishnan House
- Kalam House
- Bhai Veer Singh House

Children of the school participate in competitions like poem recitation, paper reading, declamation, debate, model making, singing, dancing, P.Pt. presentations, story telling, book reviewing and sports.

Children participate in a vibrant manner and compete spiritedly. Through these competitions their hidden talent comes to the fore. Competitive spirit is also developed in the children when they participate in these intra-school competitions.

WINNERS ARE PRODUCED HERE

Children of all age groups are groomed into skilled, strong and supple athletes at the school's sports complex where children play minor and major games and learn to focus, coordinate, compete and succeed. In the last few years the school has produced a number of winners at the zonal level, regional level and national level.

AWARDS AND ACCOLADES IN CO-CURRICULAR ACTIVITIES

All skills, strengths and potentialities of the children are tapped and chiseled at Revel Dale Public School. As children are to be groomed for competitive world therefore they are prepared for different inter school competitions. Students of the school participated in almost all the competitions conducted by CISCE and registered winning positions in the following events :

ACADEMIC ACHIEVERS

Academic excellence is the objective that is pursued with a lot of zeal by all the teachers of the school. Students are guided, counseled, motivated and inspired to strive hard to attain academic excellence. Teachers make all-out efforts to make their teaching interactive, interesting, life and examination oriented. The combined and collaborative efforts of teachers and students enabled students of 10th and 12th Std to score remarkably well in Board examination in the year 2022-23.

WAY AHEAD

Here at Revel Dale Public School all the teachers always remain in the inspired frame of mind and therefore they never rest on their laurels. Students too are kept in the motivated frame of mind.

The possibilities and potentialities lying deep in the young learners of the school will be further explored and brought to the fore. Children will be given the platform to showcase their potential. The rough edges will be identified and ironed out. Students of the school have already proved their merit in this competitive world. They will be further strengthened for all the challenges that life has in store for them. We need God's blessings and parents good wishes.

Pride of the School

On the verge of becoming the Pride of the Nation

Dr. APJ Abdul Kalam, has written “ Dreams transform into thoughts and thoughts lead to actions.”

It is the vision that always remains our driving force. Here at Revel Dale Public School we have always persisted with our efforts to materialize our vision of producing students who emerge as the pride of the nation.

When efforts are earnest, constant and consistent, vision gets materialized.

Jarmanvir Singh (8th class) and Jagroop Singh (7th Class) the members of the school hockey team got the coveted position in the playing eleven of CISCE Hockey team and got the rarest of the rare opportunity of playing in the National School Games at Gwallior.

Now that the talent, agility, skills and strengths of Jarmanvir and Jagroop have been noticed by experts in the National School Games, the day is not far when these two young Hockey players will represent the National Hockey Team in different international level tournaments.

Ms. Sangeeta, the Hockey Coach of the school, is someone who made relentless efforts and succeeded in casting these young hockey players into the mould of the winners.

The other sports teachers of the school Ms. Sukhwinder Kaur, Mr. Karanvir and Mr. Talwinder Singh have also made great contribution to the growth of these two students as budding Hockey stars.

Represented CISCE at the All India Level in Hockey (Under-14) in National School Games
